

Xiaohua Yan, PhD

Professor

1999-2003, BSc of Biology, Sichuan University

2003-2006, MSc of Microbiology, Institute of Microbiology, Chinese Academy of Sciences

2006-2010, PhD of Cell Biology, Tsinghua University

2010-2012, Post-doctor, Tsinghua University

2012-2016, Assistant Investigator and Associate Investigator, Tsinghua University

2016 to now, Professor, School of Basic Medical Sciences, Nanchang University

2017 to now, Principal Investigator, Institute of Biomedical Sciences, Nanchang University

Research interest

The lab aims to understand the regulation and crosstalk mechanisms of the TGF- β and Hippo signaling pathways, and their functions in cancer and metabolic diseases. Multidisciplinary approaches are used in the lab, including molecular biology, biochemistry, cell biology, bioinformatics as well as mice models.
